Bachelor of Technology - Electronics and Telecommunications Engineering

Panipat Institute of Engineering and Technology

06/2016 - 07/2020

Panipat

Higher Secondary,

Doon International School, Dehradun

04/2006 - 06/2016

WORK EXPERIENCE

Frontend Developer Trainee,

Function Up

02/2023 - Present

Bengaluru,

Achievements/Tasks

- Pioneered the development of responsive webpages using HTML and CSS, ensuring seamless user experiences across diverse devices and screen sizes.
- Outperformed expectations by creating a cutting-edge reusable React component library, showcasing expertise in ReactJS, Recoil, and modern ES6 JavaScript, optimizing development efficiency.
- Streamlined user interaction by implementing a dynamic single-page application (SPA) with ReactJS and React-Router-Dom, effectively managing state and delivering engaging user interfaces.
- Collaborated seamlessly within Git-based projects, conducting thorough code reviews, efficiently resolving merge conflicts, and maintaining well-structured and clean codebases.
- Actively contributed to agile development processes, influencing sprint planning and stand-up meetings, leading to consistently timely project deliveries.
- Leveraged the Axios library for efficient API data retrieval and management, enhancing the overall functionality and interactivity of web applications.
- Applied responsive design principles, ensuring a cohesive and optimized user experience across both desktop and mobile platforms.
- ****Outstanding Performance:**** Achieved a commendable > 90% score in mentor-assigned tasks, underscoring dedication and exceptional skills.
- ****Timely Deliveries:**** Consistently met End-of-Day (EOD) deadlines, ensuring prompt and successful project completion.

SKILLS

HTML5 CSS Bootstrap Javascript ReactJS

TailwindCSS Recoil Redux.js Material UI

React-Router-Dom Axios REST APIs

Data Structures Git and GitHub

Responsive Web Design JSX jQuery

PERSONAL PROJECTS

TWITTER CLONE (05/2023) [🔗](#)

- **Tech stack:** React-js, Javascript, CSS, HTML, Recoil-js, React- Router-Dom.
- The React-based Twitter clone project offers Twitter-like functionalities such as **posting** and interacting with **feeds**, multiple account logins, and account creation, and is optimized for both mobile and desktop users.

GOOGLE DOC CLONE (05/2023) [🔗](#)

- **Tech stack:** React-js, Javascript, CSS.
- The web app enables users to edit and format documents with options such as bold, italic, and more and offers the ability to print or download the file as a PDF for future reference.

GYM WEBSITE (06/2023) [🔗](#)

- **Tech stack:** HTML, MUI, CSS, JavaScript, React, Recoil, and React Router DOM.
- This project is a gym website that utilizes the following technologies. The website provides users with the functionality to register, log in, and purchase subscriptions.

KANBAN BOARD (06/2023) [🔗](#)

- **Tech stack:** React JS, Recoil, react-beautiful-dnd, Material-UI (MUI).
- The Kanban Board is a task management tool developed using React JS, Recoil, and Material-UI (MUI). It utilizes the power of react-beautiful-dnd library for smooth drag-and-drop functionality. Organize and track your tasks effortlessly with this user-friendly and visually appealing Kanban Board.

Calendar with DatePicker [🔗](#)

- **Tech Stack:** HTML, CSS, JavaScript, and jQuery
- Developed a dynamic Calendar with a Date picker using HTML, CSS, and JavaScript, utilizing jQuery for enhanced DOM manipulation and event handling. Provided users with an intuitive interface to select dates, navigate through months, and toggle cell colors
